These Committees provide forums for expertise, challenge and decision making within the authority granted by the Bank authority matrix. These Committees also act as a day-to-day check and balance to ensure power and authority within the Bank is adequately distributed and to ensure a robust decision making process.

The detailed composition, roles, responsibilities and authorities of each management and sub-management committee are as contained in their respective charters.

The Board, and the Bank's CEO may establish other committees and or groups designed to assist in oversight and decision making from time to time. Where these committees have official authority in respect of the business and operations of the Bank.

5. SEPARATION OF RESPONSIBILITIES

5.1 Separation of Board and Management

Board and management complement each other's responsibilities but do not interfere in one another's. Board interference in executive responsibilities contradicts sound governance practices and must be avoided.

Board responsibilities are driven by two main responsibilities:

1. **Set direction:** Engage constructively with management in setting the direction for the business and approve the strategic direction of the business
2. **Provide oversight:** Monitor the performance of the bank across all functions through robust review mechanisms

The comprehensive list of Board responsibilities are outlined in the Banks's Bylaws, SAMA key principals of Governance and CMA regulations.

In contrast;

Management responsibilities are driven by the following two responsibilities:

1. **Execute:** Develop policies, procedures and frameworks to enable execution of the strategy approved by Board. Implement all initiatives and deliver results within guidelines approved by Board
2. **Report back to Board:** Report to the Board on the bank's performance across all functions and highlight key risks. Recommend plans to address bank's shortcomings across all aspects

5.2 Separation of Chairman and CEO

There shall be a clear division of responsibilities between the roles of Chairman of the Board and the CEO to ensure effective separation of the roles of the Board on one hand and the management on the other hand

In this respect there are two overarching governance roles:

- The oversight of The Saudi Investment Bank and its activities by the Board versus
- The day-to-day management of the bank and its activities by the CEO and by the senior management team that reports to the CEO

The **Chairman of the Board** is responsible for:

- Leading the Board
- Overseeing the Bank's strategy and management
- Overseeing that effective external relations are in place (including with stakeholders such as shareholders, creditors, financial agencies, etc....)
- Overseeing the implementation of corporate governance standards.
- Chair the Board and supervise the effectiveness of its workflow, and perform his duty effectively.

- Oversee the drafting of the Board meeting agenda, taking into account any point raised by a Board member or auditor, and consult with the members upon preparing the meeting agenda.

The Chairman, together with the CEO, is co-responsible for the Bank with regards to its local regulator – SAMA, the CMA -, and to the government

The **Chief Executive Officer (CEO)**:

- Shall exercise control and supervision over the business affairs and management of the Bank, subject to the general authority delegated by the Board and the Executive Committee, up to any limits they determine.

The CEO, together with the Chairman, is co-responsible for the Bank with regards to its local regulator –SAMA and the CMA, and to the government

5.3 Communication Procedure between Board Members and Management

Practical behaviors must balance the Board members' knowledge and accountability and management's operational autonomy

The guiding principle is that Board members have no individual power to tell staff what to do, including the CEO. The power comes from the collective nature of the Board as a whole, not individual member

Direct communication between Board members and management outside of Board or committee meetings must always be through the Secretary of the Board. A Board member wishing to engage individually with any member of the management team must inform the Board Secretary, who will then get the CEO's consent prior to contact/meeting

The Board member must inform the Board Secretary of the meeting date, who will then inform the CEO, and the CEO can elect to participate in the discussion

Individual, direct engagement of Board members with managers should be with the sole purpose to understand the business and/or the manager's capabilities and assess those, not to decide and direct

The CEO must raise deviations from the above principles with the Chairman who is in charge of realigning behavior with sound practice

Employees wishing to contact the Board of Directors must refer to the Board Secretary.

5.4 Separation of CEO and the Rest of the Management Team

The Saudi Investment Bank believes that the ability of a CEO to manage efficiently and effectively is highly dependent on his/her ability to maximize the value added contribution of his/her management team. His success is to a great extent measured not by what he/she as an individual is able to produce but by what his/her management team produces, collectively

Clear separation of duties and proper segregation of responsibility are keynote to allowing the CEO to dedicate time for carrying out his/her value adding functions which are: planning, organizing, directing, controlling and coordinating

The CEO shall ensure the engagement of the senior management team in the overall steering of the bank through active and effective engagement and strict implementation of the delegation of authority policy and matrix.

5.5 Delegation of Authorities

The organizational structure of the bank shall determine the competencies and the distribution of tasks between the Board and the executive management as per the best governance practices, improve the efficiency of decision-making, and achieve balance between powers and authorities. In order to achieve this, the Board:

- Develops and approve the internal policies related to the bank’s business; this shall include defining the tasks, competencies and responsibilities assigned to the various organizational levels.
- Approves a written and detailed Delegation of Authority Policy and matrix that defines the powers delegated to the executive management, provided that it includes an account of each power, its method of implementation, and delegation period; it may request the executive management to submit periodic reports on its exercise of the delegated powers.
- Ensures the bank’s business and operations must be conducted and managed through a system of delegated authorities
- Ensures the management and employees will be delegated the authority that they need to perform their responsibilities effectively
- Ensures the bank shall store a comprehensive record of the delegated authorities in a single repository – the delegation of Authorities (DoA) matrix
- Acknowledges that delegating an authority to a subordinate does not relieve the higher authority levels of their accountability for the authorities vested in them
- Has delegated the Management personnel the **right** to exercise the authority that is attached to their position and have an **obligation** to do so in a judicious manner and in the best interests of the bank
